INSTRUCTIONS TO BIDDERS

BID REQUIREMENTS:

The City of O'Fallon, Missouri (the "City") <u>requires</u> all bids be submitted on the blank bid form furnished with these contract documents and shall conform to the terms and conditions set forth in the "Instructions to Bidders", "General Conditions" and "Special Conditions" of the contract. Please make and retain a copy of this bid for your records. The bid must be enclosed in a sealed envelope bearing the bid number and the printed title of the bid. Bidders must sign, in ink, the bid form and all other documents where indicated.

Where applicable, the Bidder shall furnish with the bid, one set of all available literature pertaining to the equipment and/or material to be furnished under the bid.

Bidder shall acknowledge receipt of each addendum issued in the space provided on the bid form.

The total price quoted by the Bidder must be the total cost delivered to the location(s) stated in the "Special Conditions" or "Specifications". Bidder must not qualify his bid by stating a F.O.B. location other than such stated location(s).

In the specifications, whenever an article or material is defined by brand name, the name and catalog number of a particular manufacturer, vendor or a limited description, the term "OR APPROVED EQUAL" is written. Any reference to a particular manufacturer's product either by brand name or limited description is only for purposes of setting a standard of performance, quality, composition, construction, or size. If there is any deviation in the pack, source, quality, etc., of an item bid, from that prescribed in the specifications, the appropriate line in the specifications will be ruled out and the substitution clearly indicated.

However, if "OR APPROVED EQUAL" is <u>not</u> written and you cannot bid the specified item, the Bidder may submit an alternate bid. The City will consider the bids covering the specified article or material first.

The City, for cost effective measures, standardizes on specific items; those bids will contain the language "no substitution," and any alternative will not be considered.

ALTERNATE/EQUAL BIDS:

The City recognizes the expertise provided by many bidders and encourages creativity in bidding. Alternates may be considered if the bid submitted clearly indicates what will be furnished and how it will benefit the City. Alternates will be compared to the lowest responsive, responsible bid as specified.

The City reserves the right to approve any material the Bidder proposes to furnish which contains variations from specification requirements, but which may substantially comply.

CONTRACT AWARD INFORMATION:

Award notification will be sent to the vendor receiving the award via mail or fax.

Response summaries will be available at www.ofallon.mo.us under Bid Opportunities. This summary information will include bids that were delivered by the required bid opening date and time.

CONTRACT DOCUMENT COMPONENT PARTS:

The contract documents herein named include all of the following component parts, all of which are fully a part of this contract as if herein set out verbatim, or, if not attached, as if hereto attached.

- 1) Instructions to Bidders
- 2) General Conditions
- 3) Special Conditions
- 4) Bid Form
- 5) References
- 6) Specifications
- 7) Pricing/Signatures
- 8) Any and all addenda to the foregoing

All documents are or will be on file in the office of the City Clerk, City of O'Fallon, MO, 100 North Main, O'Fallon, MO 63366.

DEVIATIONS AND EXCEPTIONS:

Deviations and exceptions shall be described fully, on the Bidder's letterhead, signed, and attached to the Bid Form. In the absence of such statement, the bid shall be considered as if submitted in strict compliance with all terms, conditions, and specifications; the Bidder shall be held liable. Bidders are cautioned to avoid making deviations and exceptions to the specifications, which may result in rejection of their bid.

EXAMINATION BY BIDDER:

The Bidder shall, before submitting his bid, carefully examine the bid, specifications, and contract documents.

If his bid is accepted, he will be responsible for all errors in his bid resulting from his failure or neglect to comply with these instructions.

Unless otherwise provided in the <u>SPECIAL CONDITIONS</u>, when the specifications include information pertaining to preliminary investigations made by the City, such information represents only the opinion of the City as to the location, character or quantity of the materials encountered. That information is only included for the convenience of the Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the information.

FACSIMILE/E-MAIL TRANSMITTALS:

Facsimile and/or e-mail transmitted bids will not be accepted by the City.

INDEMNITY:

The Contractor shall, at all times, fully indemnify, hold harmless, and defend the City and its officers, members, agents, and employees from and against any and all claims and demands, actions, causes of action, and cost and fees of any character whatsoever made by anyone whomsoever on account of or in any way growing out of the performance of this contract by the Contractor and its employees, or because of any act or omission, neglect or misconduct of the Contractor, its employees and agents or its subcontractors including, but not limited to, any claims that may be made by the employees themselves for injuries to their person or property or otherwise.

Such indemnity shall not be limited by reason of the enumeration of any insurance coverage herein provided.

Nothing contained herein shall be construed as prohibiting the City, its directors, officers, agents, or its employees, from defending through the selection and use of their own agents, attorneys and experts, any claims, actions or suits brought against them.

The Contractor shall likewise be liable for the cost, fees and expenses incurred in the City's or the Contractor's defense of any such claims, actions, or suits.

INTERPRETATION OF CONTRACT DOCUMENTS:

If a potential Bidder is uncertain as to the meaning of any part of the specifications or other contract documents, the bidder is expected to submit questions to the Purchasing Agent. The Purchasing Agent is the point of contact for this bid. All communications regarding this bid packet must be directed to the Purchasing Agent. All contact with the City should be channeled through the Purchasing Agent. No contact with other City employees, officials, or City Council members is to be made by responding proposers throughout the entire process.

If a question can be answered by directing the questioner to a specific section of the bid packet, then the Purchasing Agent may answer the question over the telephone. Other questions may be more complex and may require a written amendment to the specifications. The Purchasing Agent will make this determination. Oral communication is considered unofficial and non-binding on the City. If an amendment to the specifications is issued, it will be provided to all offerors that were issued a copy of the bid packet and to those that have requested a copy of the bid packet from the Purchasing Agent.

Christine Grabin, Purchasing Agent E-mail: cgrabin@ofallon.mo.us

Only questions answered by formal written addenda will be binding. Oral and interpretations or clarifications will be without legal affect.

PREPARATION OF BIDS:

The Bidder shall return his bid on the attached bid forms. <u>Bids must be returned with all pages intact.</u> Please make and retain a copy of this bid for your records. Unless otherwise stated, all blank spaces on the bid page or pages, applicable to the subject specification, shall be correctly filled in. Either a unit price or a lump sum price, or both as the case may be, shall be stated for each and every item, either typed in or printed in ink, in figures, and if required in words. Bidder shall acknowledge receipt of each addendum issued in the space provided on the bid form.

All prices quoted by the Bidder shall be F.O.B. destination delivered and shall include any and all freight costs to the delivery location(s) specified. The Bidder must not qualify the bid by stating F.O.B. a location other than such stated location(s).

When a bid consists of a number of items, prices must be submitted for all items, unless otherwise directed in the Special Conditions.

Where unit prices are to be bid, and/or where bids are to be made on more than one item, the Bidder shall extend the unit price(s) bid in the places provided on the pricing pages for the approximate quantities, shall compute the total amount of the bid and shall indicate same on the bid page. The Bidder must bid in accordance with the unit(s) of measure called for. If an item is listed by each, the bid price must be entered by each, not dozen or hundred. All extensions and total sums are subject to verification by the City and the correct extensions and sums will be used in the comparison of bids.

Where unit prices are requested, the quantities stated are approximate only. The quantities for all items on which bids are to be received on a unit price basis, will not be used in establishing final payment due the Contractor. Bids will be compared on the basis of number of units stated in the Bid Pricing Section. Contract payment for unit price items will be based on the actual number of units installed in the completed work within the proposed scope of work.

All extensions and total sums are subject to verification by the City and the correct extensions and sums will be used in the comparison of bids. If a discrepancy exists between the unit prices and totals, the unit prices shall prevail. If a discrepancy exists between the total base bid and the true sum of the individual bid items, the true sum shall prevail.

In certain cases, amounts are to be shown in both words and figures. When discrepancies occur between the "Written in Words" and the "In Figures" amounts for the total lump sum bid amount, the "Written in Words" shall govern.

Bidders are warned against making any erasures or alterations of any kind, and bids, that contain omissions, erasures, conditions, alterations, or additions not called for may be rejected. The bidder must fill in all blanks. Use "N/A" or "None" where applicable.

The bid shall be signed by a company officer empowered to bind the company. Failure to sign the bid may cause the bid to be determined to be non-responsive and the bid may be rejected.

SUBMISSION OF BIDS:

All bids must be received in sealed envelopes that have your name and address in the UPPER left corner and the attached label filled in and pasted on the LOWER left corner.

Bids mailed "EXPRESS MAIL" must have bid number and due date on the outside of the EXPRESS MAIL envelope.

The Bidder shall be responsible for delivery of bids to the Purchasing Agent before the date and hour set for the opening of bids. The City assumes no responsibility for delays caused by any delivery service. Postmarking by due date will not substitute for actual receipt by the City. Late bids will not be opened or considered.

PROJECT DESCRIPTION:

BID SPECIFICATION – Fiber Optic Cable Installation

- Installation Locations and Requirements See Appendix A
 - From the Parks Maintenance Building to an existing pull box located approximately 175 feet northeast of the Parks Maintenance Building. The cable shall begin terminated inside a new 1U rack mounted patch panel located inside the Parks Maintenance Building through the southeast wall, to an existing pull box located approximately 175 feet northeast of the building. Six strands of the new cable shall be spliced to the existing cable strands as shown below in a new outdoor rated, waterproof splice enclosure to be provided by the vendor.

o From the existing pull box located approximately 175 feet northeast of the Parks Maintenance Building to the Diamond 4 Concession Stand Building. Six strands of the new cable shall begin spliced to the existing cable in the new splice enclosure as shown below and travel northeasterly underground approximately 1,140 feet through an existing pull box located south of the Diamond 4 Concession Stand Building, through the exterior wall of the Diamond 4 Concession Stand Building into a new 1U patch panel in the existing communications rack inside the building. The vendor shall supply and install two new 1U rack mounted patch panels and fiber cables.

• Hardware Specifications

- O Berk-Tek 12-strand Single Mode Dielectric OSP fiber optic cable, or equivalent, will be utilized on this project (part#OPD012AB0403). The optical fiber must meet or exceed the major optical fiber industry standards, including IEN50173, ISO/IEC 11801, ANSI/ICEA S-870-640, ANSI/TIA-568-C-3, and Telcordia GR-20. The optical fiber must have low attenuation throughout the 1285 nm to 1625 nm wavelength range and comprehensive environmental specifications to provide full-spectrum capability. The optical fiber must enable flexible network design such that it meets minimum 10GB Ethernet and TDM applications but can also evolve to support emerging wavelength division multiplexing systems increasingly being used for high-bandwidth, multiple services, or multi-protocol applications. The cable should utilize a loose tube and dry cable water blocking design providing stable performance over a wide temperature range. The cable must be jacketed with Medium Density Polyethylene (MDPE) that is free from blisters, cracks, holes, and other deformities. The jacket shall be marked with the cable manufacturer's name, fiber type, date of manufacture, designation of "FIBER OPTIC CABLE", and cable length markings.
- Each reel of fiber optic cable shall be accompanied by the manufacturer's test data (birth certificate) showing compliance with the manufacturer's recommended practices and specifications and shall also indicate compliance with the requirements herein. This test data shall be attached to each reel via a weather resistant tag. All fiber optic cable test data shall be provided to the City of O'Fallon Information Technology Department for review and approval prior to its installation.
- The shipping, handling, and storage of the fiber optic cable must be in accordance with the manufacturer's recommended procedures. Bidder will be responsible for all ordering, receiving, and storage of all materials utilized in this project. The fiber optic cable shall be installed in accordance with the manufacturer's latest version of the cable installation procedures and the installation standards, codes, and practices as specified in this Invitation for Bid. In the event that the fiber optic manufacturer recommends more stringent installation procedures than the requirements specified herein, Bidder shall follow the more stringent manufacturer recommendations and procedures, unless otherwise approved by the City.

Outside Cabling Specifications

- o Fiber optic cable shall be installed in conduit to be installed by the City of O'Fallon Parks & Recreation Department. An "underground-rated" locate wire suitable for direct burial shall be installed in the conduit. Splicing of the locate wire is not permitted. A 20' service loop of the locate wire shall be coiled in each pull box location. Locate wire to be terminated at above ground level in appropriate access box outside each building entrance point and be clearly labeled "Fiber Locate". Locate wire is to be tested to ensure end to end continuity for electronically locating the conduit system.
- All strands of the Fiber optic cable entering facilities shall be terminated using either a pigtail splicing technique or via direct installation of fiber optic connectors in the field. Regardless of the method used, all terminations shall be in accordance with manufacturer's recommendations and requirements. All terminations must provide fiber termination panels and/or cabinets that provide ease of fiber management and maintenance. Termination panels must provide LC-compatible connectors for connection of City equipment. Bidder shall provide standard panels. The City of O'Fallon has no preference on manufacturer of the patch panels. All terminations must be documented and labeled for clear identification. Pigtail Splicing, if used, shall be fusion spliced through the use of factory connectorized pigtails at the fiber termination panel. Pigtails shall consist of jacketed, single fiber cables with one end available for splicing to the fiber optic backbone cable and the other end equipped with an LC-compatible connector. Each pigtail

- shall be constructed with single-mode fiber having the same optical characteristics as the fiber optic backbone cable.
- LC connectors shall be factory-fabricated and installed. All connectors and associated components shall be reviewed and approved by the City. All connector terminations shall be in accordance with manufacturer's recommendations and requirements. Factory testing of all connectors shall be validated prior to the pigtails being shipped. Connectors shall meet all the requirements of the latest issue of TIA/EIA-568-A.
- Field Connectorization, if used, must employ techniques to ensure that termination quality is equal to or better than that achieved via factory terminated connectors. Bidder must ensure that persons performing the termination are properly trained and that all terminations are made in accordance with manufacturer's recommendations and requirements.
- Slack Loops. The fiber optic cable must have slack loops placed at building entrances and pull boxes. The slack loops shall be a minimum of 20 feet in length of slack cable coiled in each pull box and at every building entrance location to facilitate future interconnection, splicing, and maintenance needs.
- o Labeling. Each fiber optic strand shall be labeled with a unique identifier at the LC coupler in the fiber termination enclosure. Each fiber shall also be labeled where it enters the back of the coupler panels. The identifier shall be in the format of BSSD-Strand-number.
- Guarantees and Warranties Specifications
 - The first phase of testing shall consist of bi-directional end-to-end attenuation testing to measure the link loss and continuity of fibers and, in addition, to verify that no fibers have crossed in any of the splice or termination points. The second phase shall consist of an OTDR test to locate fiber events and measure the losses attributable to cable, connectors, splices, and other components. Optical fibers in the cable shall be tested from termination panel to termination panel for attenuation characteristics in accordance with these specifications during both phases. All OTDR testing shall comply with EIA/TIA-455-61. All OTDR traces shall be provided to the City of O'Fallon on CD-ROM. All cable test results shall be provided to the City of O'Fallon for review and approval. Any rejected cable shall be removed and replaced at Bidder's expense. Bidder shall conduct the test again, at its expense, on any cable segment that is replaced.
 - As-built drawings must be provided before any payment will be approved by the City. Bidder must provide
 City a set of as-built drawings that must be suitable for submission to Missouri One Call System or Bidder
 may provide at his discretion Missouri One Call IMAP submission.
 - Bidder must provide a one-year warranty from the date of final acceptance on all materials and services provided under this Invitation for Bid.
