ADDENDUM #1

The purpose of this addendum is to answer all questions received on or before 06/20/19 at 12:00 P.M. (central time). The time period for questions is closed.

Questions:

1. For "Section I. Blank signs..." Could we get more of a description, so we can determine what is expected? For example is the City saying they just want the black vinyl on the back and mill aluminum finish on the other side? or black vinyl one side and reflective sheeting on other side with no border and no legend? Trying to determine what the "blank" means, so we can price accordingly.

Answer: "Blank" would imply reflective sheeting with border, no text or symbols and black on back.

2. Section I-III What type of "diamond grade" sheeting is expected? Type IX or XI DG3?

Answer: Type IX is sufficient

3. Does the delivery location have a dock and/or fork lift for unloading shipments?

Answer: Delivery location has a fork-lift, but no dock. Delivery would need to provide hand lift for moving material to back of truck if delivered by van style trailer or box truck.

4. Section V: does any of the brackets or hardware need to be powder coated black?

Answer: No powder coating on brackets and hardware.

5. Section V items 21J-21M do you have a manufacturer number of material using now, so we know what is expected? There are a wide range of variable items out there.

Answer: We are currently using a 3M Scotcal- electrocut graphic film. It comes in a 30"x 50 yard roll. We need an equivalent (at a minimum) or greater performing vinyl.

Reminder:
